Introduction

About me

- I'm a passionate Frontend Developer with expertise in React.js. I love creating modern, scalable, and user-friendly web applications that provide exceptional user experiences. With a strong foundation in web technologies and UI/UX, I enjoy turning complex problems into simple, beautiful, and intuitive solutions.

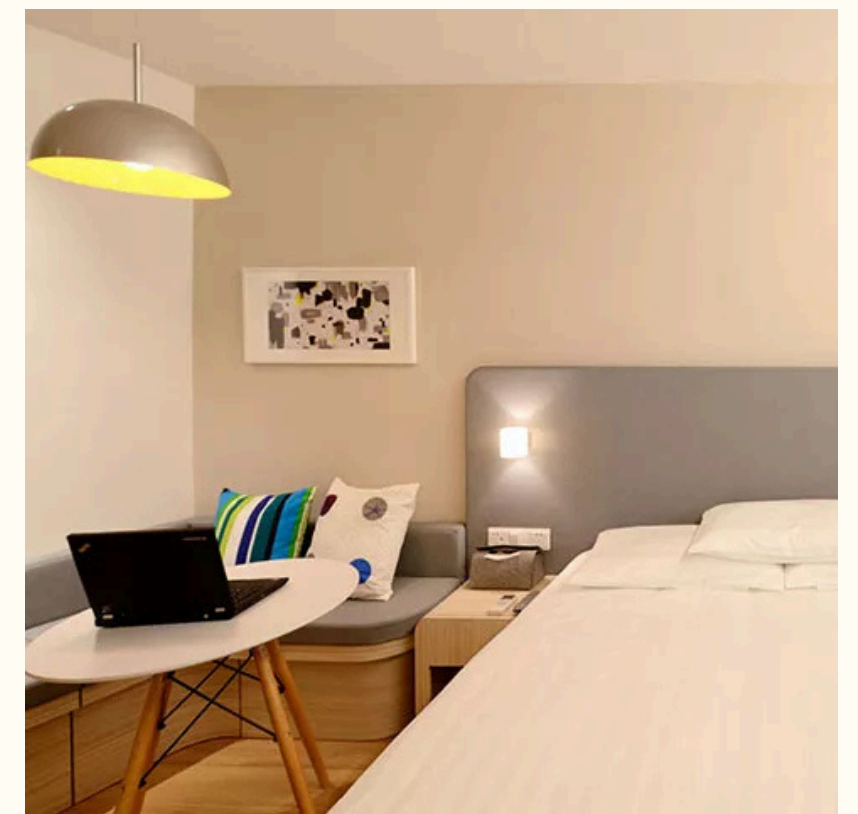

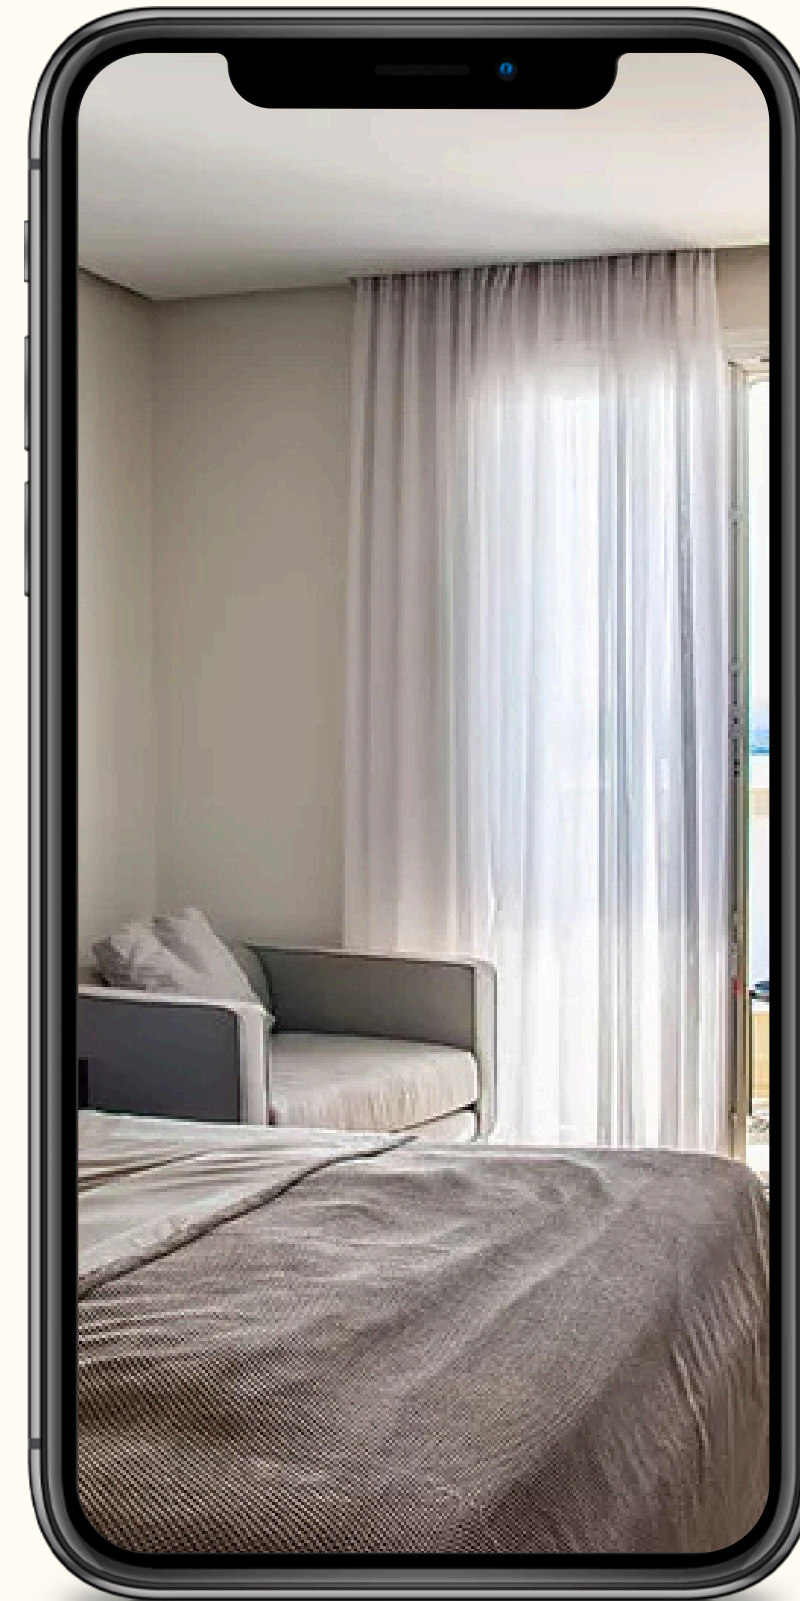

Professional projects

"A modern and user-friendly hotel room booking platform that allows users to search available rooms, compare prices, and explore detailed accommodation options. The goal is to make the booking process easier, faster, and more flexible while providing the best choices to meet customer needs."
